‘Never stop dreaming, never give up, never stop trying and never stop believing.’

Welcome back everyone and I really hope that you have had a good relaxing Easter. It would have been fabulous to meet you at the front doors this morning in your polo shirts and be able to personally welcome you back. However, we must remain positive.

The future plan for your learning is that every two weeks we will be sending out a timetable from all of your subjects. This work is to keep you focused and your brain engaged. However, your overall well being is equally important to us. So you should not try to rush and stress yourself out by completing all of this work in one go. You should design yourself a timetable for Monday to Friday and aim to do no more than three hours of work a day, working on perhaps three to four subjects. You also need to plan some physical activity into your day along with some other activities that you enjoy.

Learning from home is not easy and I know that some of you will struggle with the work but remember you can email staff to help you with any aspect of the work or any other issues you may be struggling with.

All I can ask of you is that you try your best and that you stay safe.

Take care,

Mrs Wellington

Learning at Home

To support learners with distance learning a fortnightly overview sheet has been produced detailing the work and where and how it can be accessed. The vast majority of work and guidance will come from 2 main areas:

The **school website** and the **Google Classroom** platform.

Staff can be contacted via their school email address for further support and guidance. Any issues with passwords and school emails please email password@ccyd.org.uk

The following slides will outline the work that has been set for each year group for each subject. Please do not feel that everything has to be completed.
