Improvement Planning

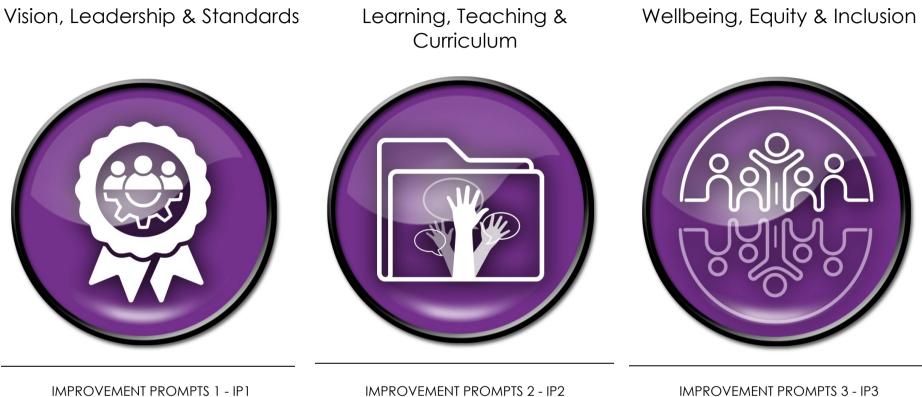

Self Evaluation

Pupil Deprivation Grant

2023/2024

This document is set out in three sections as follows and the prompts arranged in line with the NEIR.

IMPROVEMENT PROMPTS 2 - IP2

IMPROVEMENT PROMPTS 3 - IP3

Overview of School Improvement Planning and Self-evaluation Processes

From September 2023 the School Improvement plan and Self-evaluation report have been merged into one document. This format has been adapted using the National Resource: Evaluation and Improvement [NEIR].

This document is designed to provide a strategic approach to school improvement at Coleg Cymunedol Y Dderwen. The strategic intents or prompts provide the main focus and will provide the basis for improvement and change over the next three years.

Our school priorities will align with Welsh Government National priorities, Consortium priorities, the Local Authority strategic plan and local priorities. Our Improvement Plan will provide a flexible framework for future success in line with all of the above to secure improvement.

Our quality assurance cycle shows that our self-evaluation processes are embedded and rigorous and our use of data to drive improvement replicates this. The Senior Leadership team in addition to all TLR holders will drive their strategic and operational intent in each of their areas by creating school improvement planning and thorough self evaluation processes.

For this to happen, we have developed a well-established self-evaluation cycle (which continues to evolve). This self-evaluation cycle involves Governors, learners and staff and is used to identify strengths and areas for development. The cycle involves self-evaluation activities (e.g. Departmental, TLR and Year Group Reviews) and Quality Assurance activities (e.g. lesson observations/work sampling/POL sampling/IP sampling) where aspects of underachievement are identified, challenged and supported to improve. We will use this evidence along with other data and information including attendance data, behaviour and wellbeing data, reading ages, writing ages, National test data and Star Maths data to develop a holistic picture of all learners. This will help us to support individual learners on a day to day basis, reflect on individual learner progression over time and understand group progression. This will ensure that we are focused on learner progress and wellbeing. The Improvement Plan whilst integral to the self-evaluation cycle is also the school's "working document". This document is the school's reference point for the year ahead. It contains the key tasks and development strategies to support the school priorities.

The key purpose of this document is to ensure we give our learners the best possible learning experiences and outcomes. This will be used to help us identify our strengths and areas of development. It will allow us to support sustained improvements in teaching and learning and all areas of leadership whilst promoting professional reflection and discussion and informing our professional learning. Our self-evaluation process is continuous and is now clearly aligned with improvement planning. It is reflective and honest and considers a wide range of views and evidence from across the school including learner voice. It is based on a wide range of evidence not just data and focuses on learner wellbeing and progress.

| Staffing Levels | Teaching | Misc support staff | Admin | Premises team | Technicians | Cleaners | Librarians | Total |

Funding

| Funding | Amount | Areas Supported (detailed in plan) |
|---------|---------------------------------------------------|------------------------------------|
| PDG | £370,300 £370,689 Allocated in the plan below. | |

School Vision: CCYD aspires to empower our community to be collaborative, resilient and reflective individuals who have the self-confidence to embrace challenge.

School Motto: Taking Pride

We regard our learners at Coleg Cymunedol Y Dderwen as individuals, with equal rights but differing strengths and interests. The school seeks to play a major part in helping young people to develop into confident, sensitive and reflective adults, with a range of worthwhile interests, ready to play an active part in society. We want our young people to be happy, optimistic learners with high levels of self-esteem, enthused with a belief that they can achieve their full potential and become equipped with the necessary skills and qualities to be successful. The vision of our curriculum is to support our learners to develop the four purposes.

We believe that parental/carer partnership is crucial and we place great value on individual contact. Friendliness and willingness to listen are the starting points for effective collaboration and these you will find in abundance at Coleg Cymunedol Y Dderwen. Our main priorities for the next few years ahead are around the significant and continuing impact of Covid 19 on learner wellbeing including behaviour, attendance, exclusions along with the deficits on skill and learning development.

We are aware and will continue to support the 'national priorities' within this plan:

- Improving learner progression by ensuring their learning is supported by a range of knowledge, skills and experience
- Reducing the impact of poverty on learners' progression and attainment/achievement and aspirations

Strategic Intents:

- Vision, Leadership and Standards
- Learning, Teaching and Curriculum
- Wellbeing, Equity and Inclusion

Each Strategic intent will have prompts for development. Each prompt will have a detailed implementation plan.

Monitoring and evaluating the plan

The following structures have been set up to monitor the progress made towards reaching the targets:

- The Head teacher will report progress to the Full Governing Body every half-term
- Progress will be reviewed by SLT in January and April and evaluation will take place in July
- Strategic leads, Team leaders, Heads of Years and all TLR holders will report on progress via regular SLT link meetings and report throughout the year to SLT/Governors via Standards Reviews
- The School's priorities are reflected in performance management objectives for all staff
- External scrutiny of our plan will be provided by our Improvement Partner.

The plan clearly outlines high level priorities for the coming year but some of these have been carried over for two years in light of the National Mission, BCBC's Strategic Plan, School Improvement Guidance from Welsh Government, the NEIR framework, CFW, Four Purposes Development and ALN reform. Some areas of improvement will also be high level priorities for 2025 and 2026.
