CCYD ELITE FESTIVAL

A huge thank you to Brecon Carreg Water, Castell Howell Foods, and R&B Inflatables for sponsoring our Elite Festival Event held at CCYD yesterday in the glorious sunshine. What better way to celebrate and promote outstanding behaviour, effort, and commitment to school life than by rewarding our CCYD Elite learners with their very own festival of fun. The message is simple: work hard, behave well, follow school rules, and your efforts will be recognised and rewarded. The day was packed with exciting activities, including giant inflatables, carnival games, face painting, bracelet and necklace making, and a unique fruit smoothie bike, where learners had to pedal to blend their own drinks. Our resident DJ, Mr Lilly, kept the atmosphere buzzing with the latest dance hits throughout the day. There was also plenty of free food and refreshments for everyone to enjoy, including candy floss, popcorn, burgers, hot dogs, and water. A huge thank you goes to all the staff and learners whose hard work helped make the event such a fantastic success. Most importantly, congratulations to our Elite learners, who thoroughly deserved this special reward for their dedication, positive attitude, and excellent behaviour.

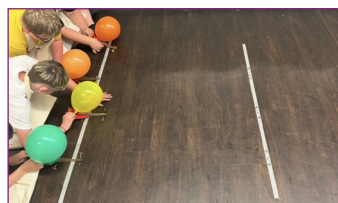

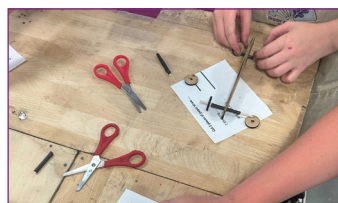

CCYD SPORTS DAY

The day began during form time with an engaging Sports Day quiz, which gave learners the opportunity to test their sporting knowledge while building excitement for the events ahead. The positive atmosphere was evident from the start, with learners enthusiastically representing their houses and cheering on their classmates. Competition was fierce as houses went head-to-head in a variety of sporting events. Learners demonstrated excellent teamwork, determination and sportsmanship while taking part in football, netball, basketball and rounders. Each event provided opportunities for learners of all abilities to get involved, contribute to their team and enjoy the spirit of healthy competition. Sports Day was not only an opportunity for learners to showcase their sporting talents but also to develop important skills such as teamwork, resilience, communication and leadership. These qualities were evident across all events and contributed to the overall success of the day. A huge thank you goes to all staff who helped organise and supervise the activities, as well as to the learners whose positive attitude and enthusiastic participation made the event such a success.

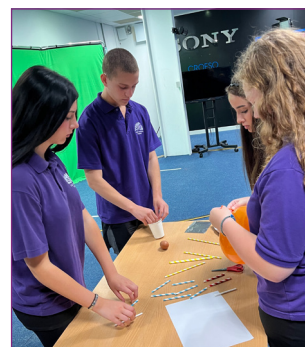

CCYD YEAR 6 TRANSITION

CCYD recently welcomed Year 6 pupils from our partner primary schools for an exciting transition event designed to help them prepare for their move to secondary school in September. Throughout the day, pupils took part in a carousel of engaging activities, giving them the opportunity to experience a wide range of subjects they will study as part of their Year 7 curriculum. From practical challenges and creative projects to interactive learning experiences, the pupils enjoyed discovering what life at CCYD has to offer. Transition is an important part of helping young people feel comfortable, confident and secure as they move from primary to secondary education. Events such as these allow pupils to meet new teachers, become familiar with the school environment, locate different departments and classrooms, and gain an understanding of the exciting learning opportunities that await them. The enthusiasm, curiosity and positive attitude shown by all the pupils throughout the day was fantastic to see. We hope the experience has helped build confidence and excitement for the next stage of their educational journey, and we look forward to welcoming them back as members of the CCYD community in September.

The day was rounded off when the learners presented a crystal rose bowl and wooden saki cup from the 1980/90s from a former employee to Jemma, our tour guide, for display in the Sony Academy. As we begin the six week summer holiday, we'd like to remind all our learners about the dangers of open water. With warm weather forecast throughout the summer, rivers, lakes, reservoirs and the sea can seem very tempting. However, water can be far more dangerous than it appears, with hidden hazards, strong currents and cold-water shock posing serious risks.
